## PRESENTACIÓN

Durante el año 2022, se ha continuado con la gestión de los diferentes Acuerdos Transformativos (AT) negociados en el ámbito nacional de la CRUE-CSIC.

Desde comienzos de 2021, se han puesto en marcha Acuerdos Transformativos (AT) con cuatro grandes editoriales - ACS, Elsevier, Springer, Wiley para la suscripción de las licencias de acceso a sus plataformas de revistas, cuya anterior vigencia finalizaba a finales de 2020. Estos acuerdos, que permiten al personal investigador de la URJC publicar en acceso abierto, sin coste alguno, estarán vigentes hasta el año 2024, permitiendo mayor visibilidad e impacto de las investigaciones desarrolladas por parte del PDI de la URJC y de sus resultados.

La Biblioteca Universitaria mantiene, como en años anteriores, otros acuerdos beneficiosos para los investigadores de la universidad, con MDPI y SCOPAP3.

Durante 2022, 136 artículos publicados por el PDI de la URJC han podido acogerse a estos acuerdos, implicando un ahorro directo para este personal, departamentos, grupos de investigación de casi 300.000,00€, de acuerdo con los datos facilitados por los editores y los cálculos realizados a partir de ellos.

## INFORME 2022

2

La Biblioteca Universitaria presenta este informe con el que se pretende poner en valor los resultados y aspectos más relevantes de la aplicación de estos acuerdos transformativos en la URJC durante el año 2022.

Para la aplicación de los distintos AT en la universidad se han seguido dos tipos de criterios:

- ✓ Los impuestos por cada uno de los editores.
- ✓ Los aprobados por el Consejo de Dirección de la universidad. A comienzos del año 2022 y más tarde de nuevo, se modificaron los criterios de la universidad, flexibilizando algunos, de manera que se vieran beneficiados un mayor número de PDI de la URJC y se dieran las condiciones para gestionar el mayor % de los AT concedidos en la negociación a nivel nacional.

De acuerdo con los criterios aprobados por parte del Consejo de Dirección de la URJC, se han acogido a los Acuerdos Transformativos (AT) 136 artículos publicados en 115 revistas que ocupan posiciones Q1 y Q2 en sus respectivas categorías en Journal Citation Reports (JCR) y SCIMAGO Journal Rank, en un % superior al 60%.

De los autores que se han acogido a los AT, algo más de un 41% son mujeres.

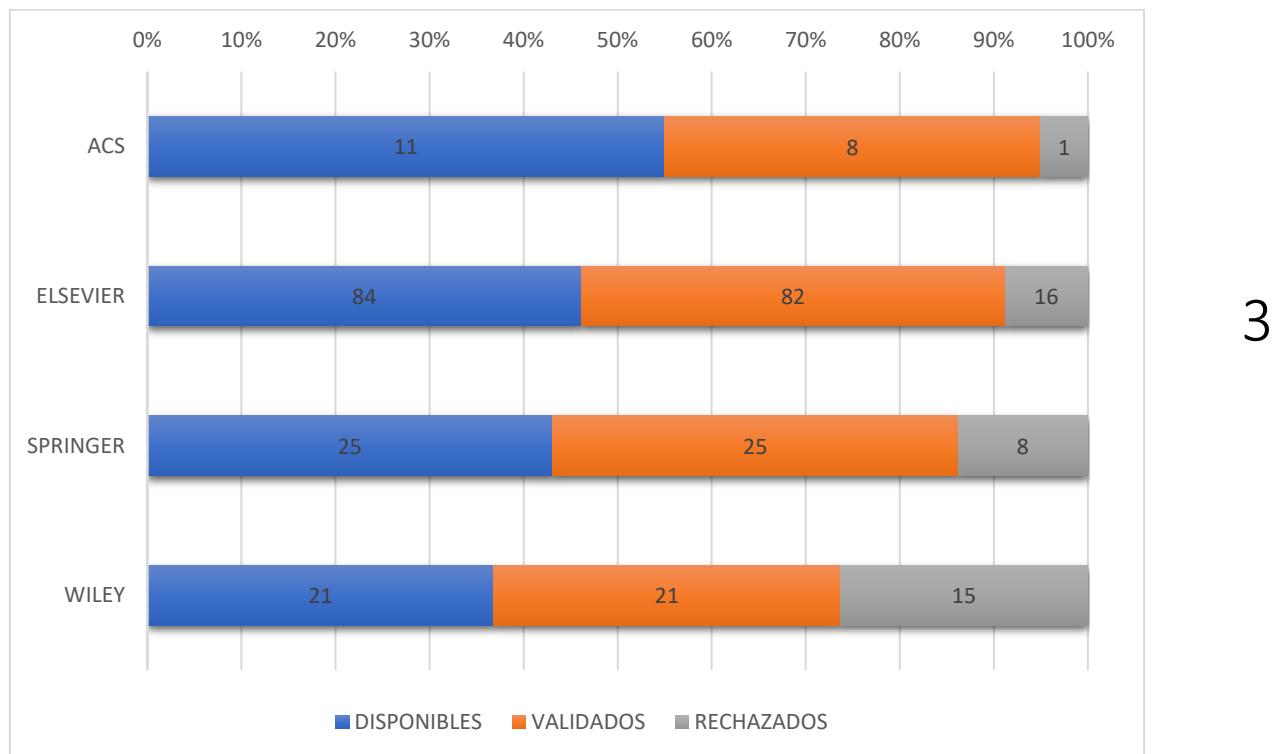

De los artículos publicados, casi un 43% lo han sido bajo la firma de correspondencia (*corresponding author*) de una mujer.

# APLICACIÓN DE LOS ACUERDOS TRANSFORMATIVOS (AT) EN LA URJC

Se presentan los datos resultantes de la aplicación de los Acuerdos Transformativos (AT) con las 4 editoriales con las que se ha negociado a nivel nacional durante el año 2022.

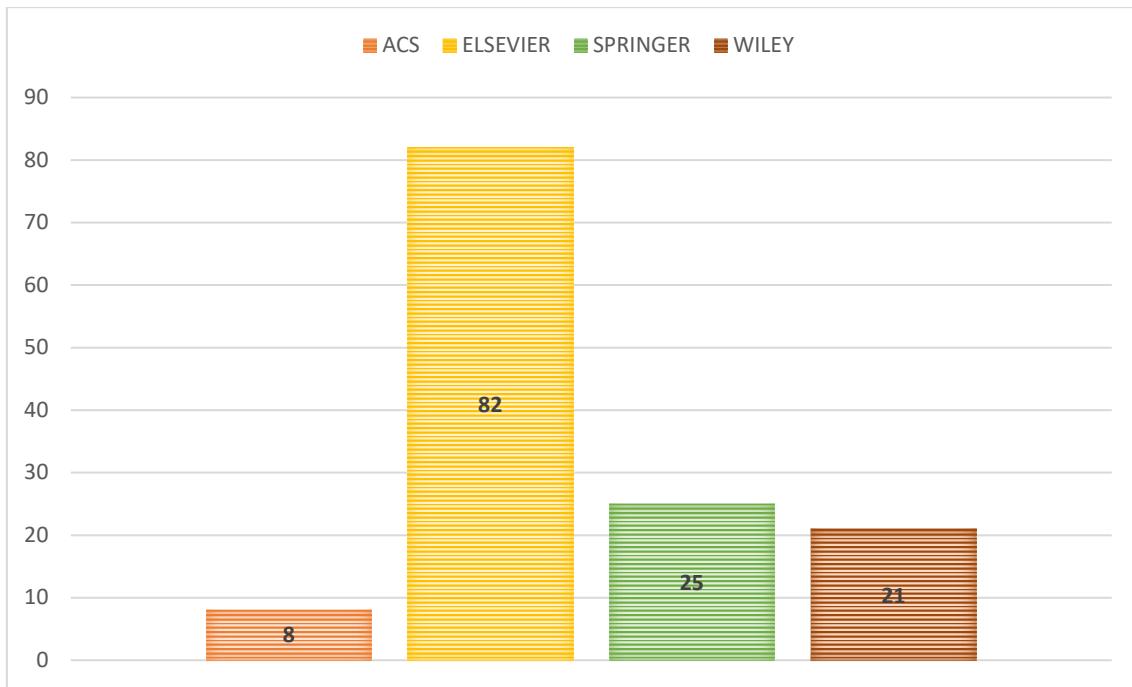

## ANÁLISIS

- Artículos validados

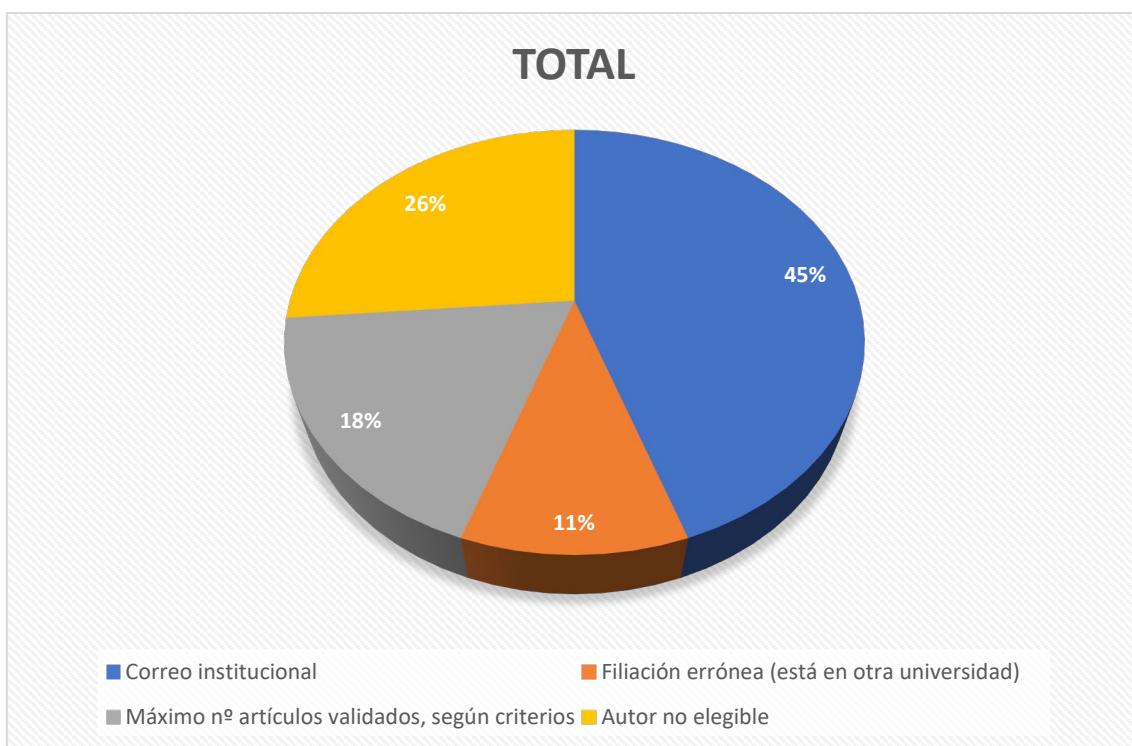

Se han validado 136<sup>1</sup> artículos, de un total de 186 solicitudes y de 156 APC's disponibles. Los APC's no gastados durante el año 2022 no se han podido recuperar en 2023, excepto en el caso de SPRINGER.

<sup>1</sup> V.: ANEXO 1

■ Motivos de rechazo

4

■ Inversión

EDITOR	PRESUPUESTO	IMPORTE	NO IMPUTADO
ACS	40.515,86 €	-29.466,08 €	11.049,78 €
ELSEVIER	224.390,00€	-205.976,97 €	18.413,03 €
SPRINGER	37.267,05€	-37.267,05 €	0,00 €
WILEY	45.143,40€	-26.334,00 €	18.809,40 €

**ACS:** en su **dashboard** indica que cada APC tiene un coste de 4,000us. En la tabla se hace un cálculo dividiendo el coste total entre el número de APC's, por lo que 3683,26€/APC

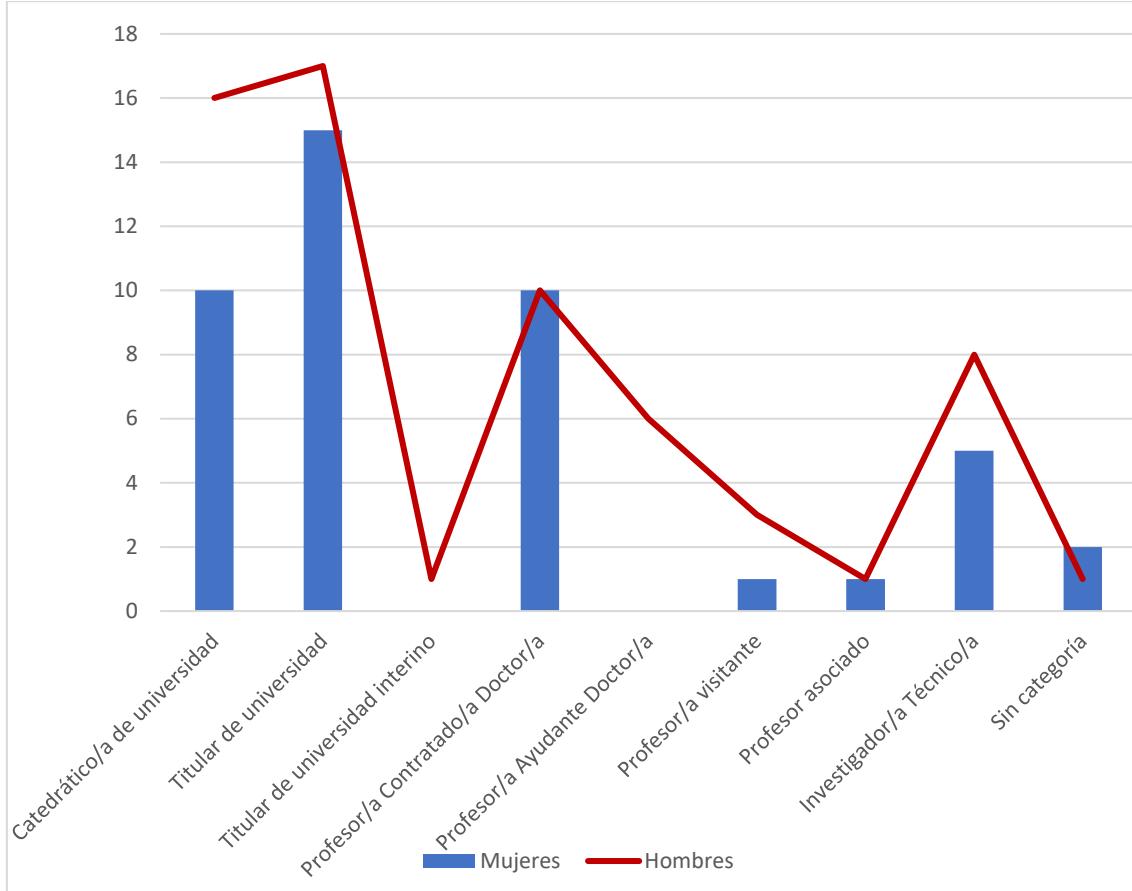

**Springer:** no facilita coste de los APC's. En la tabla se refleja una cantidad resultante de hacer un cálculo dividiendo el coste total entre el número de APC's = 1490,68€/APC

**Wiley:** para el año 2022, no facilita coste de los APC's. En la tabla se refleja una cantidad resultante de hacer un cálculo dividiendo el coste total entre el número de APC's = 1254,00€/APC

■ Autores

Se han beneficiado de la aplicación de los AT un total de 107 autores con filiación "URJC". De manera que ha aumentado el número de autores beneficiados de la aplicación de los AT en 2022, en algo más de un 26%.

5

Los criterios de validación dentro de la URJC se volvieron a revisar en 2022, flexibilizando los señalados en 2021, de modo que hay algunos autores que han publicado más de un artículo en revistas de un mismo editor: 8 autores han publicado más de 2 artículos con el editor Elsevier; 1 autor ha publicado 2 artículos con SPRINGER.

De los artículos publicados, más de un 42% corresponden a “*corresponding author*” mujer.

#### ■ Departamentos<sup>2</sup>

De los 22 departamentos existentes en la universidad, se han beneficiado de la publicación de artículos bajo los AT, PDI de 16 departamentos.

Matemática Aplicada, Ciencia e Ingeniería de los Materiales y Tecnología Electrónica	Ciencias de la Computación, Arquitectura de Computadores, Lenguajes y Sistemas Informáticos y Estadística e Investigación Operativa	Tecnología Química y Ambiental	Tecnología Química, Energética y Mecánica	
	Economía de la Empresa	Psicología	Economía de la Empresa (ADO), Economía Aplicada II y Fundamentos Análisis Económico	
	Teoría de la Señal y Comunicaciones y Sistemas Telemáticos y Computación	Fisioterapi... Terapia Ocupaci... Rehabilitaci... y Medicina Física	Econo... Aplicada e Historia e Instituci... Econó...	Economía Financiera y Contabilidad...
Biología y Geología, Física y Química Inorgánica	Cie... de la Ed...	Enf... y Est...	Est... His...	

6

Como se puede ver en el gráfico, los departamentos que han publicado más artículos son el Dpto. de Matemática aplicada, ciencia e ingeniería de los materiales y tecnología electrónica (17) y el Dpto. de Biología y geología, física y química inorgánica (13), seguidos de Ciencias de la Computación, Arquitectura de Computadores, Lenguajes y Sistemas Informáticos y Estadística e Investigación Operativa, Tecnología Química y Ambiental, así como Tecnología Química, Energética y Mecánica, cada uno de ellos con 10 artículos publicados.

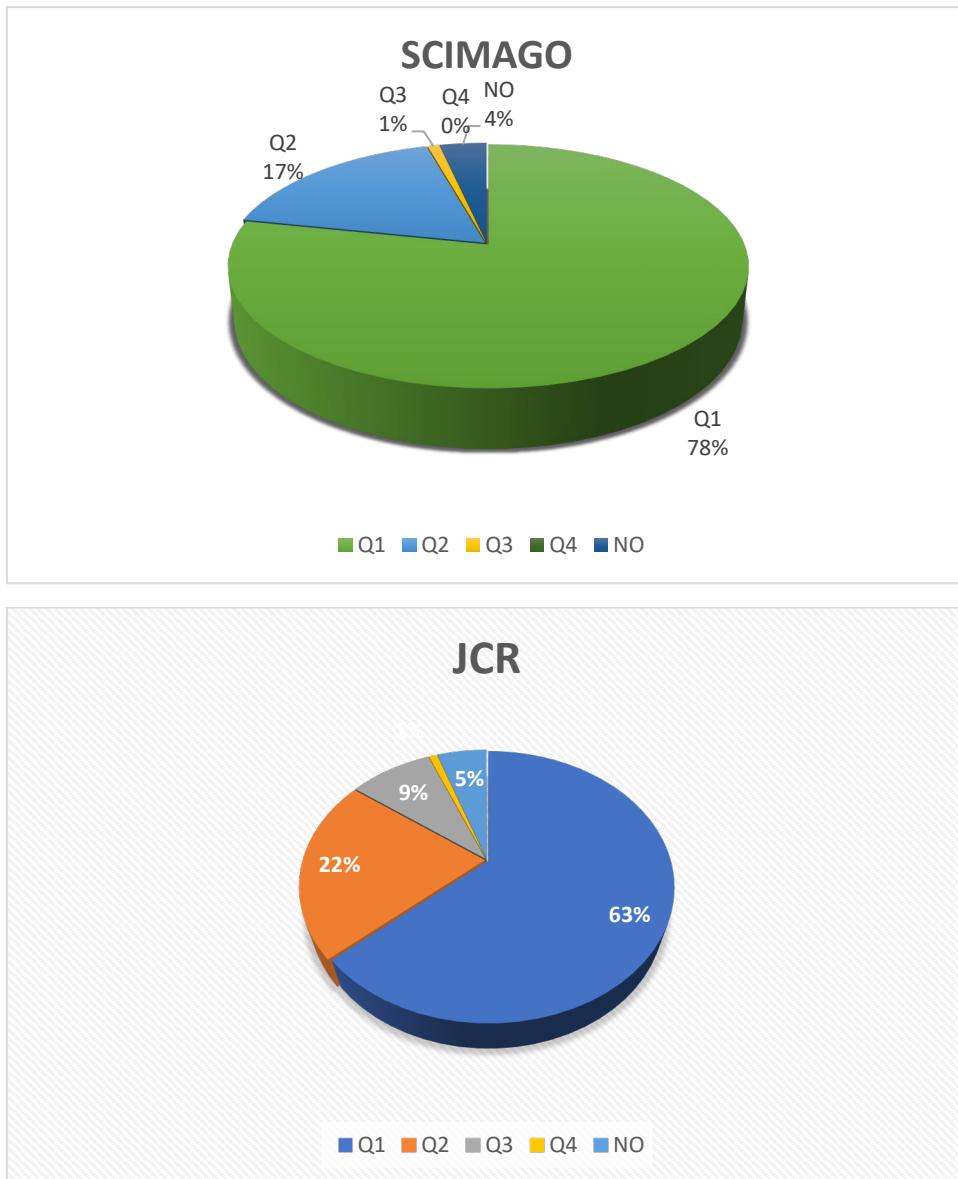

---

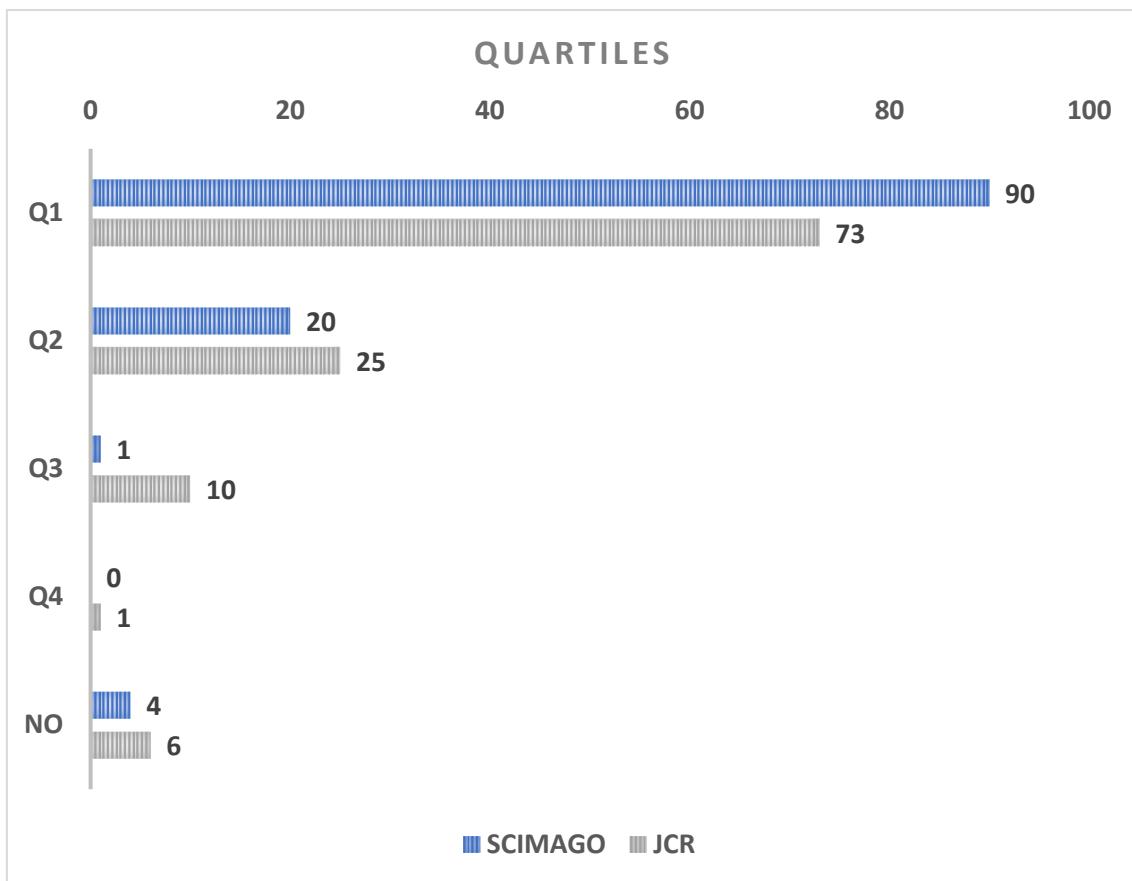

<sup>2</sup> Para la elaboración de este Informe se ha tenido en cuenta la estructura de departamentos existente en 2022, sin abordar los cambios habidos a lo largo del año, para unificar los datos.

- Revistas

El total de artículos validados se ha incluido en 115 títulos de revistas; la mayor parte de ellas figura en el Q1 y Q2, de acuerdo con los criterios fijados por el Consejo de Dirección de la universidad. Además, hay artículos validados incluidos en revistas de Q3 y Q4 o que no figuran en el JCR ni en SCIMAGO.

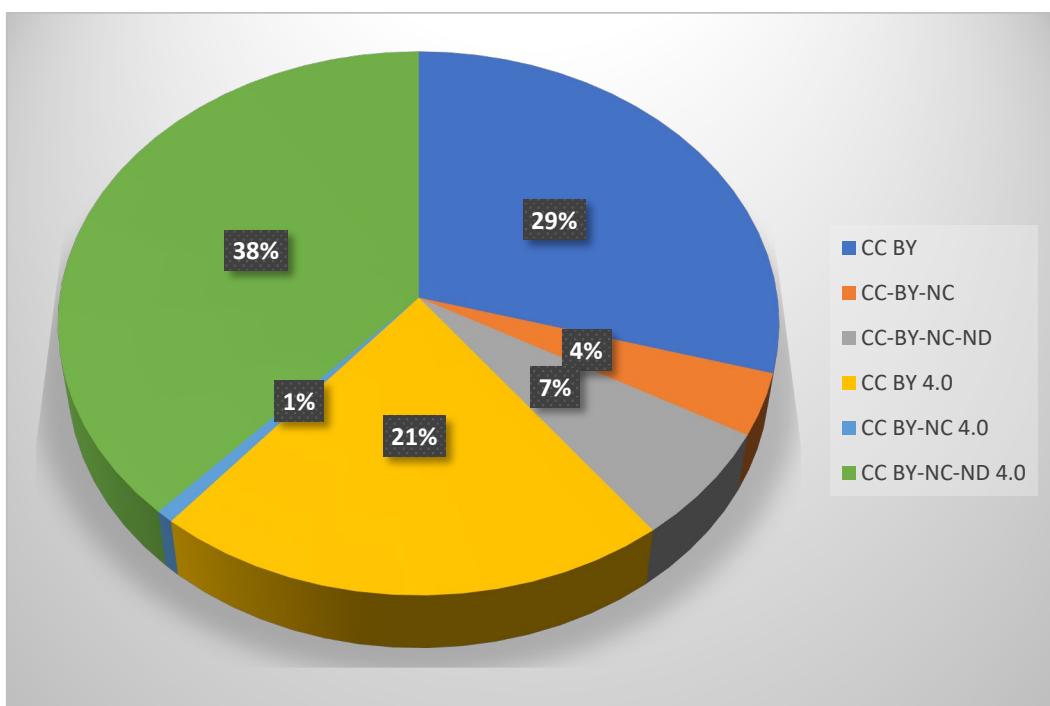

Se ha analizado la presencia de los 115 títulos de revistas tanto en el JCR, como en SCIMAGO, teniendo en cuenta las diferentes valoraciones de las revistas en las diferentes áreas temáticas y categorías, en ambos casos en la edición de 2022. En el caso de SCIMAGO se analiza el valor de los “Cuartiles”; en el caso del JCR, se tiene en cuenta el “Journal Impact Factor”.

8

- Licencias CC

Cada editor propone una serie de licencias CC a los autores. Del análisis realizado, queda patente que la más seleccionada por los autores de la universidad es la licencia BY-NC-ND 4.0,

con un 38%. En la tabla que figura a continuación se recogen las características de cada una de las licencias CC propuestas por los editores.

LICENCIA	¿Qué puedo hacer?
CC BY	<b>Reconocimiento</b> - Distribuir, remezclar, adaptar y desarrollar su trabajo, incluso comercialmente, siempre con reconocimiento de la creación original.
CC-BY-NC	<b>Reconocimiento-NoComercial</b> - Remezclar, adaptar y desarrollar trabajos de manera no comercial; los nuevos trabajos también deben reconocerlo y no ser comercial, no tienen que licenciar sus trabajos derivados en los mismos términos.
CC-BY-NC-ND	<b>Reconocimiento-NoComercial-SinObraDerivada</b> - sólo permite que otros puedan descargar las obras y compartirlas con otras personas, siempre que se reconozca su autoría, pero no se pueden cambiar de ninguna manera ni se pueden utilizar comercialmente.
CC BY 4.0	<b>Compartir</b> — copiar y redistribuir el material en cualquier medio o formato <b>Adaptar</b> — remezclar, transformar y construir a partir del material para cualquier propósito, incluso comercialmente.
CC BY-NC 4.0	<b>Compartir</b> — copiar y redistribuir el material en cualquier medio o formato <b>Adaptar</b> — remezclar, transformar y construir a partir del material
CC BY-NC-ND 4.0	<b>Compartir</b> — copiar y redistribuir el material en cualquier medio o formato

#### ▪ Artículos depositados en la BURJC Digital

Está pendiente, de acuerdo con uno de los criterios establecidos en el Consejo de Dirección de la universidad, la publicación en la BURJC Digital de los artículos validados dentro de los diferentes AT durante el año 2022, a la espera de la elaboración de un procedimiento que facilite la carga automática de los mismos.

## CONCLUSIONES

1. En este segundo año de aplicación de los AT, ha aumentado el número de APC's gastados dentro del año, gracias a la medida de revisión y modificación los criterios establecidos por parte del Consejo de Dirección de la URJC.

Se ha gastado el 96,5% de los APC's asignados a la URJC, beneficiándose de las condiciones de los AT más de un 73% de las solicitudes recibidas.

Por segundo año, el motivo de rechazo mayor ha sido no incluir una cuenta de correo institucional (45%), seguido de un 26% en el que el motivo ha sido que el PDI solicitante no reunía las condiciones de autor elegible.

2. En el año 2022, un 68% de los departamentos de la universidad se ha beneficiado de los términos de los diferentes AT, aunque esto representa tan sólo cerca de un 4% del PDI total de la universidad.

Casi un 43% de los artículos publicados dentro de los AT cuentan con un "corresponding author" mujer. De ellas, casi en 23% son catedráticas de universidad y un 34% son titulares de universidad.

De los autores varones, algo más de un 25% son catedráticos de universidad y un 52,38% son titulares.

10

3. Un año más, se recomienda fomentar la normalización de la firma académica y científica, ya que se detectan diferentes firmas de un mismo autor en los editores incluidos en los AT. Con esta medida aumentaría la visibilidad y, por tanto, el impacto de los autores de la URJC y de la propia universidad.

## IMPORTANTE

Cambios en el JCR a partir de la edición de 2023, que recoge los datos de 2022:
