STUDENT MANUAL

SELF-REGISTRATION IN UNIVERSITY MASTER’S DEGREES

ACADEMIC YEAR 2022/2023
1. INCOMING STUDENTS. FIRST YEAR

Students who have been admitted in the pre-registration process will self-register through the Aplicación de Automatrícula (Self-Registration Application) available to that effect, during the established dates (Dates for self pre-registration and self enrolment) published in the University website.

New students who do not have a URJC account will need to enter, on the identification screen, the provisional username and password assigned to them during the pre-registration process. The username is the student’s ID number (DNI, NIE, passport, etc.) and the provisional password is the letter “f” followed by the student’s date of birth with the format “fddmmyyy” (for example, for 01/06/1990 the password would be f01061990).

Once students have completed the self-registration process, a message will be sent to the email address they provided within 72 hours, notifying them of the new username and password which constitute their URJC account. This new username and password will provide access to the University’s online services, needed to conduct students’ academic activity, and will substitute the provisional username and password.

Students who already have a URJC account will use it to complete the self-registration process.

Students need to register for all the subjects they want to complete during the academic year.

When completing their registration, students must take into account the Normativa de Matrícula y Permanencia en los Estudios de Máster de la Universidad Rey Juan Carlos (Regulation for Enrolment and Permanence in Master’s Degrees at Rey Juan Carlos University), as well as the Normativas y Reglamentos (Rules and Regulations) applicable to current master’s degrees at Rey Juan Carlos University.

Conditional registration:

Students who have not yet completed their undergraduate studies may request Conditional Admission to the University Master’s Degrees of the Universidad Rey Juan Carlos, during the last pre-registration period for each Master’s Degree, when at the time of pre-registration they have for completing a maximum of the Final Degree Project plus 9 ECTS (according to Royal Decree 822/2021, of September 28). "Although in no case may they obtain the Master’s degree if they have not previously obtained the Bachelor’s degree."
According to Royal Decree 822/2021, of September 28, priority will be guaranteed in the enrolment of students who have the official university degree of Graduate or Graduate. Therefore, this circumstance must be taken into account when making the admission and it will have to be reflected in the evaluation of the students and, therefore, in the grade given to each student.

In the case of certain master’s degrees, it is not possible to request pre-registration without having completed the previous studies (see the master’s website) since they do not admit conditional admission.

2. SIMULTANEITY OF MASTER’S DEGREES

Students who simultaneously enrol in two master’s degrees (procedimiento de solicitud de libre simultaneidad de estudios de másteres universitarios en la URJC, procedure for simultaneity of university master’s degree studies at URJC) will have to submit, at the registro or Registro electrónico de la Universidad (Sede electronica), a written statement indicating their preference, to the attention of the School of Master’s Degrees and with the reference “preferred master’s degree”, before 30 September 2022.

3. SECOND YEAR STUDENTS OR STUDENTS WITH PENDING SUBJECTS

Students who began a master’s degree in previous academic years, and who have to register for their second year or for pending subjects during this academic year, must complete the self-registration process in the established dates published in the University website (Dates for self pre-registration and self enrolment), without completing again the pre-registration process. These students must take into account the Normativa de Matrícula y Permanencia en los Estudios de Máster de la Universidad Rey Juan Carlos (Regulation for Enrolment and Permanence in Master’s Degrees at Rey Juan Carlos University) and must submit their application at https://sede.urjc.es/catalogo-de-servicios in the dates established by the University. Students with one or more pending subjects will have to wait until the corresponding grades have been recorded before registering for these subjects in the established dates for self-registration of second year students or students with pending subjects.

Students who registered for the first time in the subject “Master’s Thesis” in the academic year 2021/22 but did not present it, will have to register the subject again in the academic year 2022/23, although they will not have to pay second registration fees for the subject, as established in the current regulation. In any case, students must take into account the Reglamento del Trabajo Fin de Máster (Regulation for Master’s Thesis) and the Normativa de Matrícula y Permanencia en los Estudios de Máster de la Universidad Rey Juan Carlos (Regulation for Enrolment and Permanence in Master’s Degrees at Rey Juan Carlos University).
Students enrolled in master’s degrees that have begun the phase-out process in the academic year 2021/22 may self-register the Master’s Thesis in the application. If they have to register for other pending subjects, they will do so by completing an Expone/Solicitud request through the Registro, or Instancia General through Registro electrónico de la Universidad (Sede electronica), in the registration dates established (Dates for self registration and self enrolment), and published in the University website, for second year students and for students with pending subjects. Students enrolled in master’s degrees that began the phase-out process in previous academic years, will register for pending subjects by completing a request form (Expone/Solicitud) at the Registro or at Instancia General through Registro electrónico de la Universidad (Sede electronica), in the same established dates. Once their request has been examined, and if it is approved, the registration process will be completed by the School of Master’s Degrees, who will inform students by email.

Students who have exceeded the permanence established will not be able to register again in the master’s degree. In any case, and in accordance with the Normativa de Matrícula y Permanencia en los Estudios de Máster de la Universidad Rey Juan Carlos (Regulation for Enrolment and Permanence in Master’s Degrees at Rey Juan Carlos University), they may contact the rector at URJC to apply for continuation of their studies when reasons of force majeure, which have to be duly documented and proven, have affected their academic performance. This request will have to be made through the corresponding electronic application, in the dates established and published to this effect. Once the requests for extension of permanence have been resolved, they will be answered by email and will also be available at the Registro electrónico de la Universidad (Sede electronica).

4. CREDITS/SUBJECTS RECOGNITION

Students who are able to request Credits/Subjects Recognition will have to first register in the correspondent master’s degree, as they will not be able to apply for the recognition until their registration has been processed. These students will not have to register for the subjects they are requesting validation for, in accordance with the Reglamento sobre reconocimiento de créditos/asignatura y adaptaciones en titulaciones de másteres universitarios (Regulation for credits/subjects validation and adaptations in master’s degrees).

Students of master’s degrees who wish to have access to the Virtual Classroom in order to follow the subjects they have requested recognition for, in case it is denied, can register for these subjects. If the subjects are finally validated/recognised, the correspondent refund will be processed, upon prior request.

The request for recognition must be made through the electronic application enabled for this, which can be accessed through the link,
(https://gestion2.urjc.es/convalidacionesmanuales/), or by logging into the Services Portal, clicking on “Solicitudes” (Requests), and then on “Solicitud de convalidación manual” (Request for manual validation). Students can make this request any time after completing the registration process and until the 15 October.

In the event that original documentation or a certified photocopy of the same is requested, you will have to deliver it or send it through the Registro General of the University, the auxiliary registries located on the university campus, or through Registro electrónico de la Universidad (Sede electronica), or by any means established in the current regulation.

When applying for Credits/Subjects Recognition, students will have to pay the fee established in the Public Prices Decree to process the validation of studies. In addition, if the recognition is authorised, students will have to pay the receipt corresponding to the recognition in accordance with the Public Prices Decree.

Once a decision on the request has been reached, students will have a set period of time to modify their registration information, in case they need to extend it to include subjects that have not been recognised. These changes can be made in the Aplicación de Modificación de Matrícula, which can be accessed through the Services Portal.

Remember that, if you have applied for a Scholarship from the Ministry of Education and after the period of allegations has elapsed, you must pay the amounts corresponding to your enrolment in the period indicated, even when you file an Appeal for Reversal of the Ministry Resolution. If they do not pay the corresponding amount within the established period, their registration will be cancelled due to non-payment, applying current regulations.

5.7- TERMS AND METHODS OF PAYMENT

5.7.1- SINGLE PAYMENT AND FRACTIONED PAYMENT

When completing the self-registration, students can choose between the modalities of single payment and fractioned payment.

If the Decree that regulates public prices for university studies 2022/23 has not been approved before the registration process, the prices applied will be those established in the current Decree. If these prices are modified
by the approval of a new Decree, the opportune adjustments will be processed. We therefore RECOMMEND that students select PAGO FRACCIONADO (FRACTIONED PAYMENT), adjusting their enrollment in future domiciled installments.**

SINGLE PAYMENT:

Students who take advantage of the modality will have to pay their registration receipt at CaixaBank (only by cashier and telematic means, payment by window is not enabled) or Banco Santander by the means established for this purpose in these entities and within the period indicated in the payment letter. If after this period the corresponding amount has not been paid, the enrollment will be canceled ex officio by the University, due to non-formalization of it, without the need for prior notice.

Foreign students who cannot make the national payment indicated in the previous paragraph and who therefore need to make the payment through an International Bank Transfer, should contact the School of Official Masters through the Inquiry Mailbox URJC| https://ayuda.urjc.es section Máster-Gestión económica, descuentos y exenciones indicating in the subject: “Transferencia Bancaria Internacional” (International Bank Transfer). (Transfer and/or currency exchange costs will be borne by the student). If after this period the corresponding amount has not been paid, the enrolment will be cancelled ex officio by the University for non-formalization of it, without the need for prior notice.
FRACTIONED PAYMENT:

Students who select the modality of fractioned payment, will pay the invoice corresponding to the first payment at any branch of BANKIA or Banco Santander in the established dates, and will direct debit the rest of payments at a bank account within the Single Euro Payments Area (SEPA). If the first payment is not paid in the established dates, the University will proceed to cancel ex officio the student’s enrolment, due to its Non-formalisation, without prior notice. If they do not satisfy the remaining payments in the dates established, the registration will be cancelled due to Non-payment, in accordance with the current regulation.

It consists of dividing the registration fee into eight (8) instalments: the first corresponding to 30% of the total amount and the other seven (7) corresponding, each one of them, to 10% of the total amount. Students who enrol in the September call and choose fractioned payment, will have seven (7) instalments because the first and second instalments will have to be paid at the same time.

Students who accept the fractioned payment method will have to choose and pay the first tuition receipt as a bank receipt, with the rest of the tuition receipts being domiciled in a bank account belonging to “La Zona Única de Pagos en euros (SEPA)” (The Single Payment Zone in euros) (SEPA).

For the selection of fractioned payment in your registration, you must have the IBAN number of your bank account at hand to complete the following screen
For this payment method, it will be necessary for the HOLDER of the bank account to complete, sign and deliver the “Orden de domiciliación de adeudo directo SEPA” (SEPA Direct Debit Order) that will be generated together with the Payment Letter of your registration at the end of the registration process. In addition to the previously described forms of delivery of documentation, you can also deliver it through the Inquiry Mailbox | https://ayuda.urjc.es section Máster-Gestión económica, descuentos y exenciones, accessing with your password and username, if this document has been signed by means of a valid ELECTRONIC SIGNATURE.

Those students who in previous courses had already delivered the aforementioned direct debit order to the School of Official Master's Degrees for studies of University Master's Degrees and have not changed their bank account, will not have to present it again. In the event of changing studies from a Bachelor's Degree to a University Master's Degree, or corresponding, it will be necessary to submit the new SEPA Direct Debit Order.

If said document is not delivered, the University will not have the necessary authorization to make the direct debit charges to the indicated bank account, so the type of enrolment payment will be automatically modified, becoming a SINGLE PAYMENT by bank receipt.

The charges for direct debit instalments will be passed through the indicated bank account, between the 1st and the 5th of each month, from October to April, as indicated in the payment letter resulting from your registration.
corresponding amount is not paid within the periods established for the following payments, the registration will be cancelled due to Non-Payment, applying current regulations.
